#### Outcomes and results:

A. Use the table below to list the student interns who participated in the project:

Name of Student Intern	Hours Worked	Work Experience Credits earned	Name of DoD company and description of internship work
Ashlin Arriaga	were hired immediately	0	Gyro-Stabilized Systems
Joel Goodin	hired immediately	0	Gyro-Stabilized Systems

B. Describe any benefits derived by faculty extern/coach from working with the DoD companies and student interns (for example real world experience that can be brought back and incorporated into the classroom or curriculum). Sierra College is now partners with a DoD company who will be apart of our advisory committees that will help drive our curriculum alignment with industry.

C. List anecdotal information regarding the success of student internship/faculty externship project:  
Students were hired full time with a good company that can provide career jobs.

D. List any extenuating circumstances that prevented you from completing objectives of the project:  
There are many aspects of this project that are completely out of our control.

E. Describe your three greatest challenges you experienced in completing the internship project:

1. ~~Many~~ Too many hoops for students to navigate.
2. Workday was a big challenge.
3. That we had to "cold call" DoD companies and see if they were interested. The list we had to pick from was very small.

F. Describe your three greatest successes from the student internship/faculty externship project:

1. ~~met a~~ Become partners/advisory partners w/ a great DoD company
2. Students got experience.
3. Students were hired.

Anything else you wish to add:

The DoD company, GSS, is amazing and provides well paying jobs.
